## ONTARIO COMMUNICATIONS NETWORK

---

The Ontario Communications Network (OCN) is an enhanced network resulting from the use of computer-based telephone and network management facilities. The Ministry of Government Services—Computer and Telecommunication Services (CTS)—is continuing the implementation of these enhancements across the province.

Once you are converted to the new Network, it will no longer be necessary to know or use the Inter-City Network (ICN) codes. The uniform dialing procedure will automatically connect you to the appropriate line, to reach any of the locations served by the Network.

Over the next few years, the OCN will be extended to various regional centres. After 1990, when high speed “digital” lines become available, the network will become a multi-service one for the transmission of voice, data, graphics, pictures and video information.

Training programs will be carried out for employees in all locations before their telephones are connected to the improved Network. Until your telephone system has been converted, you should continue to use the existing ICN codes.

You can find out more about the Network by calling your MGS Customer Support Coordinator.

If you experience any problems with the OCN, call the CTS Service Desk at 963-3900.

ICN/OCN

---

## INTER-CITY NETWORK

---

For those locations which have not had enhanced computer-based network services installed, access to the Inter-City Network (ICN) remains as before. If your phone system is enhanced, please refer to the above.

The Ontario Government telecommunications networks enable a caller to dial directly from government centrex lines in Toronto and **consolidated** centres in Kingston, Oshawa and Hamilton, to hundreds of other Ontario localities without incurring a long distance toll charge. **It is to be used only for the conduct of government business by the staff of Government of Ontario Ministries and approved agencies, and members of the Provincial Parliament.**

If you are calling from Toronto exchange 963 or 965, you can use the Inter-City Network to place a call to a point outside the Metro Toronto free calling area. Staff who are served by “stored logic” telephone systems can access the Inter-City Network by referring to the operating instructions provided with that equipment.

The following pages contain a chart listing Ontario cities and towns, and showing the ICN and area codes to be used to access them.

Dial first the numbers shown in the “Inter-City” column, for the locality you wish to reach, then the seven-digit local telephone number.

If no Inter-City number for that locality is shown, you should place your call through regular long distance means. For this purpose, the area codes are also displayed. For area codes of localities not listed, consult your Bell directory, or call the Bell long distance operator.

**For information regarding access codes on the Inter-City Network, or to report troubles, call the Queen’s Park operator at 5-1191.**

# COMMERCIAL STANDARDS PROGRAM

555 Yonge Street  
Toronto Ontario M7A 2H6

The components of this program promote a high level of ethical business conduct by ensuring public disclosure of the essential elements of business transactions and the registration and licensing of persons dealing with the public. The various branches also conduct inspections of the financial operations of the regulated industries. In addition, the program provides services for incorporation of companies and the administration of The Motor Vehicle Accident Claims Fund which handles claims and payments for damage done by stolen, unidentified or uninsured motor vehicles.

The Commercial Registration Appeal Tribunal is the mechanism that allows licensees and registrants to appeal decisions and proposals made by Registrars of regulated industries, and also appeals from decisions or proposals of the Liquor Licence Board. Appeals of decisions regarding compensation fund claims under the ONTARIO NEW HOME WARRANTIES PLAN ACT and the TRAVEL INDUSTRY ACT and Motor Vehicle Dealers' Compensation Fund are also heard.

**LEARNING PROGRAMS DIVISION****22nd Floor Mowat Block 900 Bay Street  
Toronto Ontario M7A 1L2**

This division of five (5) centres and one (1) branch is the focus for the elementary and secondary schools of Ontario. Responsibilities include the development of curriculum and support documents, arrangements for learning materials and evaluation instruments and coordination of the ministry's participation in adult and distance (correspondence) education and child care. This division also assists school boards to respond to the needs of exceptional pupils and to the effective use of computer technology. It maintains teacher records and assists with the professional development of educators in the elementary and secondary schools in the province.

The Ministerial Inquiry on Religious Education in Ontario Public Elementary Schools is one of the initiatives under the direction of this division.

In addition the ministry has created a new organization: The Learning Programs Secretariat. The Learning Programs Secretariat is responsible for managing the planning, consultation and development of the major government initiatives in education announced in the 1989 Speech From The Throne. These initiatives involve the restructuring and redesign of the elementary and secondary education programs in the Ontario school system.

# MINISTRY OF SKILLS DEVELOPMENT

13th Floor 101 Bloor Street West  
Toronto Ontario M5S 1P7

The Ministry of Skills Development helps individuals develop skills so that they can find and keep a job. It also helps businesses and industries train workers so that they can adapt to rapidly-changing technologies. The Ministry encourages the private sector to make training a normal part of the workplace.

Ministry programs help adult workers get basic skills training and permanently laid-off older workers who are eligible for training credits. For employment-disadvantaged youth, there are employment counselling, skills training and job placement services. Young entrepreneurs can take part in interest-free loan programs. The Ministry administers the province's apprenticeship system and the Ontario Community Literacy grants program. It is also the lead ministry for Ontario's Adult Basic Literacy initiatives and for International Literacy Year.

# ALPHABETICAL LISTINGS

## Explanatory Notes

### PAGE NUMBER

The number in brackets immediately following the employee's given name indicates the Office Listing (yellow) page on which that employee's name appears. For employees whose names are printed only in the alphabetical list, no such number appears.

### LOCATION

The city or town name is shown for each employee, to enable directory users to distinguish between local and long-distance telephone numbers. Before calling any location other than Toronto, refer to the Free Calling area or the Inter-City Network, contained in the preliminary section of this directory.

The full address of any employee can be readily determined either by referring back to the appropriate Office Listing (yellow) page using the page number provided, or by telephoning the employee.

### MINISTRY IDENTIFIER

An employee's ministry is designated by the following identifiers. These identifiers are for the purpose of this directory only and are not approved designations. Employees of agencies, boards and commissions will be listed as if they were employed by the parent ministry.

*Architecture has a rich history in the Province of Ontario. Those of us who work in the Queen's Park area are especially pleased to be surrounded by the noteworthy buildings of the University of Toronto and the Ontario Legislature. For example, these elegant pillars are found at the entrance to the Lieutenant Governor's suite, at the Legislature.*

*As many of you know, 1989 marks the 100th anniversary of the Ontario Association of Architects (OAA). Architects have given us buildings to work, learn, play and live in. Their dedication to excellence creates buildings that are more than functional; they enhance the landscape of the province.*

The Ministry of Government Services (MGS) is pleased to work with these professionals. As property manager of all government owned buildings, we are involved in the design and construction phases. Members of our own architectural section are responsible for designing or overseeing designs by consultants for newly constructed or renovated government buildings.

We look forward to the continued contribution of architects throughout Ontario.

Chris Ward

Minister of Government Services
